

Take the Sting Out of CX Innovation

With Digital Suite for Retail, CX Success Is Easier Than You Think

10%  Increase revenue by up to 10% by delivering personalized experiences

30%  Increase customer lifetime value up to 30% with consistent journeys across every channel

10%  Increase customer satisfaction by 10% when recommendations are personalized

See Digital Suite for Retail in Action

With Digital Suite for Retail, you gain the advantage of enabling personalized, contextual experiences on every channel and optimizing retail associates' performance while still gaining value from existing technology investments.

Purpose-Built for Retailers' CX Success

Originally called honeybee, the technology that powers the Digital Suite for Retail was developed to address the need for a more personalized and effective sales experience. It now enables retailers worldwide to deliver:

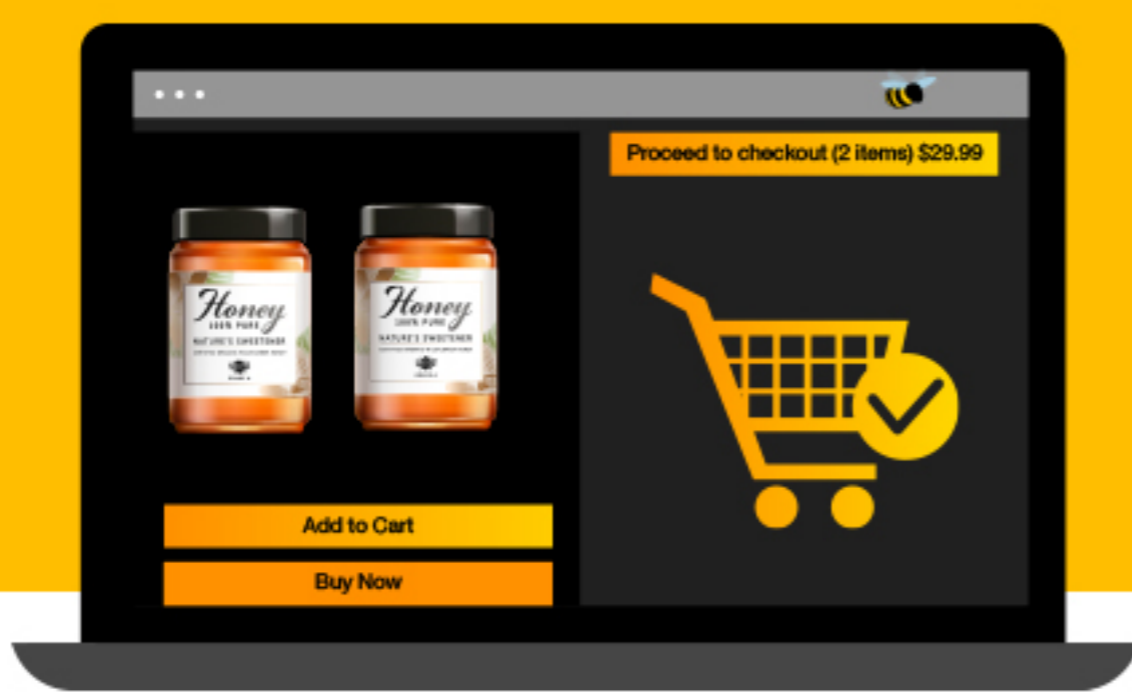

- Pause and resume experiences on every channel
- Personalized product recommendations
- Fine-tuned employee performance

Make a beeline to a faster and more powerful customer experience.
